

Immunic, Inc. to Participate in Investor Conferences in August

NEW YORK, July 29, 2020 – Immunic, Inc. (Nasdaq: IMUX), a clinical-stage biopharmaceutical company focused on developing best-in-class, oral therapies for the treatment of chronic inflammatory and autoimmune diseases, today announced management’s participation in the following investor conferences in August:

- **August 10-11: BTIG Virtual Biotechnology Conference.** Duane Nash, M.D., J.D., M.B.A, Executive Chairman of Immunic, and Andreas Muehler, M.D., Chief Medical Officer of Immunic, will participate in a fireside chat at this virtual conference on Monday, August 10, at 3:30 pm ET. A live audio webcast of the presentation will be available on the “Events and Presentations” section of Immunic’s website at: ir.imux.com/events-and-presentations. An archived replay will be available on the company’s website for a period of 90 days after the conference.
- **August 11-12: Wedbush PacGrow Healthcare Virtual Conference.** Dr. Nash and Dr. Muehler will participate in a fireside chat at this virtual conference on Wednesday, August 12, at 1:45 pm ET. A live audio webcast of the presentation will be available on the “Events and Presentations” section of Immunic’s website at: ir.imux.com/events-and-presentations. An archived replay will be available on the company’s website for a period of 90 days after the conference.
- **August 11-13: Canaccord Genuity 40th Annual Growth Conference.** Dr. Nash and Dr. Muehler will participate in a fireside chat at this virtual conference on Wednesday, August 12, at 11:00 am ET. A live audio webcast of the presentation will be available on the “Events and Presentations” section of Immunic’s website at: ir.imux.com/events-and-presentations. An archived replay will be available on the company’s website for a period of 90 days after the conference.

About Immunic, Inc.

Immunic, Inc. (Nasdaq: IMUX) is a clinical-stage biopharmaceutical company with a pipeline of selective oral immunology therapies aimed at treating chronic inflammatory and autoimmune diseases, including relapsing-remitting multiple sclerosis, ulcerative colitis, Crohn’s disease, and psoriasis. The company is developing three small molecule products: lead development program, IMU-838, is a selective immune modulator that inhibits the intracellular metabolism of activated immune cells by blocking the enzyme DHODH and exhibits a host-based antiviral effect; IMU-935 is an inverse agonist of ROR γ t; and IMU-856 targets the restoration of the intestinal barrier function. IMU-838 is in phase 2 clinical development for COVID-19, relapsing-remitting multiple sclerosis and ulcerative colitis, with an additional phase 2 trial considered in Crohn’s disease. An investigator-sponsored proof-of-concept clinical trial for IMU-838 in primary sclerosing cholangitis is ongoing at the Mayo Clinic. For further information, please visit: www.imux.com.

Cautionary Statement Regarding Forward-Looking Statements

This press release contains “forward-looking statements” that involve substantial risks and uncertainties for purposes of the safe harbor provided by the Private Securities Litigation Reform Act of 1995. All statements, other than statements of historical facts, included in this press release regarding strategy,

future operations, future financial position, future revenue, projected expenses, prospects, plans and objectives of management are forward-looking statements. Examples of such statements include, but are not limited to, statements relating to management's participation in investor conferences. Immunic may not actually achieve the plans, carry out the intentions or meet the expectations or projections disclosed in the forward-looking statements and you should not place undue reliance on these forward-looking statements. Such statements are based on management's current expectations and involve risks and uncertainties. Actual results and performance could differ materially from those projected in the forward-looking statements as a result of many factors, including, without limitation, the COVID-19 pandemic, risks and uncertainties associated with the ability to project future cash utilization and reserves needed for contingent future liabilities and business operations, the availability of sufficient resources to meet business objectives and operational requirements, the fact that the results of earlier studies and trials may not be predictive of future clinical trial results, the protection and market exclusivity provided by Immunic's intellectual property, risks related to the drug development and the regulatory approval process and the impact of competitive products and technological changes. A further list and descriptions of these risks, uncertainties and other factors can be found in the section captioned "Risk Factors," in the company's Annual Report on Form 10-K for the fiscal year ended December 31, 2019, filed with the SEC on March 16, 2020, the company's Quarterly Report on Form 10-Q for the quarter ended March 31, 2020, filed with the SEC on May 8, 2020, and in the company's subsequent filings with the Securities and Exchange Commission. Copies of these filings are available online at www.sec.gov or ir.imux.com/sec-filings. Any forward-looking statement made in this release speaks only as of the date of this release. Immunic disclaims any intent or obligation to update these forward-looking statements to reflect events or circumstances that exist after the date on which they were made. Immunic expressly disclaims all liability in respect to actions taken or not taken based on any or all the contents of this press release.
