

Immunic Therapeutics is a dynamic biotechnology company with a pipeline of selective, orally available immunology therapies for the treatment of chronic inflammatory and autoimmune diseases. Currently, three small molecule product candidates are in various stages of clinical development. For more information, please visit: www.imux.com.

We are looking for an

IT Infrastructure Manager (m/f/x)

We are seeking an experienced IT professional with experience and oversight in IT infrastructure, cloud server management, and cybersecurity, preferably from a healthcare or pharmaceutical background. The role will include managing cloud infrastructure, overseeing the establishment of a secure network, and ensuring compliance with health data regulations

- Overall responsibility for the company's data infrastructure, current cloud infrastructure, server management and cybersecurity.
- Coordination and management of our external IT service provider.
- Implementation and management of a 21 CFR part 11 compliant electronic data management system.
- Manage the expectations of all Stakeholders, from Developer to Senior Management and ensure compliance with healthcare regulations in Germany and the US.
- Support of R&D teams in all aspects of data handling in clinical and preclinical development.

Qualifications

- Bachelor degree, Master degree or equivalent in Computer Science, Informatics, Software Engineering, or related discipline.
- At least 3 to 5 years of professional experience in the operation and management of complex IT Infrastructures.
- Experience with IT infrastructure, architecture, cloud environments, and cybersecurity.
- A good understanding of secure network setup (e.g., VPN) and data storage solutions.
- Experience in healthcare, biotech, pharma, or other regulated industries with sensitive data and compliance would be beneficial.
- Excellent English (negotiation level) - written and spoken.
- Approachable, team-oriented, and adaptable.
- Strong project and time management skills.

What you can expect:

- A permanent full time position with attractive pay in an international, highly motivated and collegial team
- Full office, hybrid or full home-based is being considered
- A dynamic, flexible, open and multi-cultural working environment
- Participation in our company's success through our stock option programme
- An innovative, fast growing company

We are a passionate and ambitious team that loves to work together. Immunic is an exciting place for fresh ideas – apply now and become part of our international team!

Please send your meaningful application specifying your salary expectations as well as the earliest possible starting date by email to Erika von der Decken: jobs@imux.com.
